## FULL STACK ENGINEER

treasurecalm@gmail.com | [GitHub](#) | [LinkedIn](#) | [Twitter](#) | [AngelList](#) | [Portfolio](#)

## SUMMARY

I am a detail-oriented, big picture thinker with a passion for web development. As an experienced technical support professional and full-stack developer, I am motivated to write and develop simple and usable software solutions.

## SKILLS

Front-End: JavaScript, React.js, Redux, HTML5, CSS3, Bootstrap

Back-End: Ruby, Rails, MySQL, PostgreSQL, Node.js

Tools & Methods: Git, GitHub, Heroku, Netlify, Mobile/Responsive Development, RSpec, TDD, Capybara, Jest

Professional: Remote Pair-Programming, Teamwork, Mentoring

## EXPERIENCE

### CAREERFOUNDRY

Berlin, Germany

Mentor (Web Development)

January 2021 – Present

- Providing motivational feedback and advice to students both in writing and via video calls on creating an industry-ready portfolio of project work in line with current standards and best practices.
- Crafting individualized video reviews of student work, highlighting creative successes and areas for improvement to showcase in-demand skills and design processes.
- Working closely with tutors to evaluate student work and give actionable suggestions to improve the quality of student submissions.
- Applying extensive industry experience to guide students on potential career paths within web development.

### MICROVERSE

San Francisco, California, United States

Technical Support Engineer & Mentor (Volunteer)

April 2020 – Present

- Performed over 200 code reviews and provided actionable feedback to various developers in the community, which encouraged the growth of the developers.
- Provided 1:1 support to various developers in the community using slack and zoom to help them find answers to project-related issues.
- Helped junior developers with debugging/resolving technical blockers and guided them on following programming best practices.

### UPWORK

Santa Clara, California, United States

Freelance Full Stack Web Developer

April 2019 – Present

- Prototyped product ideas for clients using HTML, CSS, JavaScript, Ruby, and Python.
- Built landing pages for several small businesses in the community.
- Tutored and mentored several aspiring software developers encouraging some of them to pursue careers in software engineering.

### ECOLE FRANÇAISE "LES GRAND LACS"

Kampala, Uganda

IT Technical Support Specialist

January 2016 – July 2020

- I recommended and implemented IT solutions that improved the productivity of both staff and students.
- Maintained all the IT equipment, monitored and resolved network performance issues, and carried out regular software/system upgrades/updates, which in turn improved the reliability and uptime, especially for the network.
- Implemented and sensitized colleagues about a ticketing system that made it easy for the community to report technical issues and track them.

## EDUCATION

MICROVERSE  
Remote Full Stack Web Development Program, Full Time

August 2019 – October 2020

BUSITEMA UNIVERSITY  
Degree, Computer Engineering

August 2010 – October 2016
