Work Experience

Technical Support Engineer - (April 2020 - Present)
Microverse(Remote)

Responsibilities:

- Ensuring the quality of source code and conducting source code and UI reviews.
- Providing feedback that recommends necessary changes to students' projects.
- Using GitHub and Slack to give students quick answers to project-related issues.
- Offering 1 on 1 assistance to students that need extra support through zoom calls.

Freelance Developer - (April 2019 - Present)

- I am a freelance web developer that takes on short and long-term projects in web development from various clients on a contract basis.

IT Consultant/Support technician - (January 2016 - July 2019)

Ecole Française "Les Grands Lacs": French School of Kampala(Part-time)

- I recommended and implemented IT solutions that improved the productivity of both staff and students.
- Maintained all the IT equipment, monitored and resolved network performance issues, and carried out regular software/system upgrades/updates which in turn improved the reliability and uptime especially for the network.
- Implemented and sensitized colleagues about a ticketing system that made it easy for the community to report technical issues and track them.

Education

Microverse, certificate(Full Stack Web Development) - (2019 - 2020)

Busitema University, Bachelor of Computer Engineering - (2010 - 2016)
